LEGISLATIVE REPORT

The Ohio Legislature is on break until after Labor Day but there's still some news.

The ongoing saga of CDC rabies regs

In May, the US Centers for Disease Control amended its rabies vaccination requirements for dogs entering the country beginning August 1 and almost immediately ran into problems affecting dog owners and breeders traveling or working abroad with their dogs or importing dogs into the US. The changes especially affected military families stationed overseas as well as breeders, exhibitors, hunters, and other dog owners who routinely cross the Canadian border.

Canine rabies has been eradicated in the US since 2007, and CDC's old rules allowed dogs to travel into the country as long as they have a valid rabies vaccination record, are at least six months old, and have not traveled to, through, or from a rabies endemic country or region within the previous six months. Recently, however, a few rabies cases have entered the country in dogs imported from rabies endemic locations by retail rescue groups and inspectors have discovered invalid, forged, and otherwise fraudulent vaccination certificates.

When CDC announced the new rules, challenges from AKC, the National Animal Interest Alliance, military families, and rescue groups poured in, and CDC went back to the old rule allowing dogs that have not visited rabies endemic countries or regions into the US as long as they are more than six months old, are microchipped, and have valid proof of rabies vaccination. This revision to the original revision is at https://tinyurl.com/4hj58w66.

Retreat to the previous import standard still leaves the six-month minimum age for entering or returning to the country, making it difficult for prospective buyers to bring younger puppies into the US.

There is a lot of information on the web about the AKC, NAIA, AVMA, and hunting group involvement in helping the CDC to write and further revise the new guidelines on the web and an article about the confusion and frustration caused to military families in Military Times.

Update: Sportsman's group sues agencies over rabies rule

The Sportsman's Alliance Foundation filed suit against CDC and the Department of Health and Human Services on the grounds that the agency overstepped its authority when rewriting the rule and that the six month minimum puppy age damages the ability of sportsmen to continue buying puppies from Canada and other low-canine-rabies countries. The foundation is joined in the suit by several individual breeders and the North American Versatile Hunting Dog Association, an organization whose members work with

ACVIM recommends adding lepto vaccine to core dog vaccinations

The American College of Veterinary Internal Medicine has updated its research on leptospirosis and now recommends inoculating against this zoonotic bacterial disease for all dogs.

Lepto is spread in the urine of infected animals, especially rodents and especially in areas of high humidity, abundant rainfall, and flooding. Although it is rarely transferred from dogs to humans, close contact with the urine of an affected dog can result in human disease.

The disease in humans is generally mild but is dangerous for pregnant women and can be more severe in children. However, because the illness can be severe or even fatal in dogs regardless of treatment, ACVIM recommends vaccination for all dogs beginning at 12 weeks of age, that boarding facilities and daycares should add lepto vaccine to their requirements, and shelter dogs should be vaccinated on intake nd receive a booster three weeks later. These are recommendations, not government regulations or local ordinances but veterinarians are likely to recommend them to clients and community shelters and rescues. The ACVIM report is at <u>https://tinyurl.com/ z26ct5tf</u>; AKC has an article at <u>https://tinyurl.com/</u> <u>z26ct5tf</u>.

AKC REUNITE ADOPT A K-9 COP

Middletown, Union Township among police dog grant recipients

From To the Core, a column by AKC President Dennis Sprung

AKC Reunite has awarded more than \$1.4 million in 2024 grants through its Adopt A K-9 Cop matching grant program. The money came from AKC Clubs, AKC-affiliated organizations and the public to help police departments throughout the United States purchase K-9 police dogs. Four departments in Southwest Ohio have benefited from these grants: Xenia, Union Township in Clermont County, Middletown, and the Warren County Sheriff's Department. Middletown will use its grant to replace a dog retiring from its police department.

The Adopt a K-9 Cop program matches donor funds up to \$7500 per applying police department. Dogs acquired with the help of these grants are used as patrol and detection dogs helping to locate narcotics, explosives and evidence.

Adopt-a-K9-Cop has awarded more than 750 grants totaling more than \$5.7 million since the program began in 2013, including 35 departments in Ohio.
